

Piyusha Akash

Nationality: Sri Lankan | **Phone number:** (+94) 702444916 (Mobile) | **Email address:** contact.piyushaakash@gmail.com | **Website:** <https://0x3x0.github.io> | **LinkedIn:** [Piyusha Akash](#) | **YouTube:** [InfoSecLK](#) | **Address:** Kelaniya, Sri Lanka, 11300, Sri Lanka (Home)

● ABOUT ME

Offensive security engineer specializing in reverse engineering, exploit development, and penetration testing. Experienced in C/C++, x86-64 assembly, and Windows internals. Builds custom offensive tooling, analyzes binaries, and researches attack methodologies. CTF competitor seeking security research or offensive engineering roles

● SKILLS

Technical Skills

C/C++ | x86-64 Assembly | Bash Scripting | Reverse Engineering | Offensive Tool Engineering | Windows Internals | Malware Analysis | Red Teaming | Penetration Testing | OSINT | Social Engineering | Vulnerability Assessment | OWASP TOP 10 | Wazuh | Splunk | SIEM | Network Security | Network Troubleshooting | Linux (Debian) | Windows | Kali Linux | Virtualization

Soft Skills

Communication | Problem Solving | Self-Learning | Analytic Thinking

● EDUCATION AND TRAINING

30/01/2025 – CURRENT

NETWORK TECHNICIAN - NVQ LEVEL 4 Technical College - Gampaha

Field of study Information and Communication Technologies

15/04/2026 – CURRENT

PRACTICAL LOW LEVEL EXPLOITATION AND REVERSE ENGINEERING PWN College

- Advanced low-level exploitation & reverse engineering training
- Build custom shellcode and ROP chains in sandboxed environments
- Memory corruption, privilege escalation, and OS architecture

Website www.pwn.college | **Field of study** Information and Communication Technologies

27/12/2024 – CURRENT

PRACTICAL CYBERSECURITY DEVELOPMENT AND COMPETITIVE HACKING TryHackMe

- Continuous penetration testing and threat hunting labs
- Consecutive #1 global weekly rankings
- Linux exploitation, memory forensics, vulnerability chaining

Website www.tryhackme.com | **Field of study** Information and Communication Technologies

● CERTIFICATIONS

Hackviser, 24/02/2026

Certified Associate Penetration Tester

Red Team Leaders, 2026

Certified Windows Offensive API

The Linux Foundation, 2026

Introduction to Linux LFS101

● **PROJECTS**

2026 – CURRENT
Artemis

- Low-level Windows NT offensive framework in C/Assembly
- Syscall resolver for 14,000+ Windows builds
- Inline/indirect syscall stubs for EDR evasion
- XOR, Rolling XOR, and RC4 encryption

Link <https://github.com/0x3xp/Artemis>

2026 – CURRENT
Native Adversary Framework

- Windows process injection (hollowing, thread hijacking)
- PEB walking and API hashing in x64 Assembly
- Custom PE parsers for IAT/EAT analysis

Link <https://github.com/0x3xp/Native-Adversary-Framework>

● **PUBLICATIONS**

2026
[Control Flow Redirection via SetupAPI Callback](#)

- Documented methodology to subvert setupapi.dll callback routines using executable memory regions
- Bypassed endpoint detection telemetry that monitors conventional execution APIs
- Provided C POC and defensive mitigation strategies

Independent Security Research Report 2026

Authors: Piyusha Akash | **Journal Name:** Self Published Technical Security Research | **Publisher:** Piyusha Akash

Link <https://github.com/0x3xp/Native-Adversary-Framework/tree/main/Malware-Dev/Injection/SetupAPI-Callback-Redirection>

● **LANGUAGE SKILLS**

Mother tongue(s): **SINHALA**
Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	A2	A1	B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **RECOMMENDATIONS**

The Principal Principal at Technical College Gampaha

Institutional referee confirming course enrollment, academic compliance, and performance standards
Phone (+94) 332237579

Malinda Fernando Lecturer at Technical College Gampaha

Academic referee for practical technical skills, project development, and laboratory performance
Phone (+94) 71094452
